ATLANTIC TRANSPORT PLANS.

Line May Build Some Great Ships in American

President Bernard N. Baker of the Atlantic

Transport Line said yesterday that the rumor

that the line was to be absorbed by the Inter-

national Navigation Company doubtless was

caused by the line's effort at reorganization. Nearly all of the line's capital is invested in

big modern ships, including the colossal

If the Ship Subsidy bill was passed, Mr. Baker said, the line would duplicate every firitish built vessel in its big fleet by another ship built in America. This will be necessary to get American registry for the line's Builsh bottoms. The line is building two 10,000-ton scaniships in a Bultimate shipward. Mr. Baker says that these ships will be put in foreign service if the Ship Subsidy bill passes, and if it does not they will ply in the coast-
